

Travelhome & Steven Richards Motorsport Join Forces

Travelhome, Australia's leading designer and manufacturer of 5th Wheel RV's has teamed up with Ford Performance Racing's (FPR) Steve Richards.

Steve Richards: "I was looking for an RV to take to V8 Supercar events, somewhere for Frosty and I to prepare for races and relax during our down time. After looking at a few different options, I came across Travelhome and was impressed. The smart design philosophy of a lightweight 5th wheel RV behind an everyday light commercial Ute, such as a Ford Ranger means no special licence requirements. The 25ft Macquarie Travelhome has a combined length shorter than a Car and 18 foot Caravan combination with the added towing stability that a fifth wheel combination can provide."

Incorporating over 35 years vehicle

building experience, each Travelhome is individually constructed in the Hunter Valley near Newcastle in NSW. Being Australian built means every Travelhome is manufactured to comply with The Australian Motor Vehicle Standard Act. Travelhome is setting the standard in Australian fifth wheel RV design and manufacture. Their luxury 25ft Travelhome has all the features you could want with a built in shower, toilet, ducted heating and a/c. Add to this its sleek, aerodynamic shape that helps with fuel efficiency and luxury features such as built in DVD, CD and LCD screen, the Travelhome is surely the best way to see Australia and New Zealand.

Jason Dutch – Travelhome: "We're excited to be teaming up with such a great competitor as Steve. He's a number one performer and so is Travelhome so it's a great combination. All of us here are very much looking forward to seeing our

product on display at the V8 Supercar events and building a strong relationship with Steve."

Geoff Dutch – Travelhome: "This partnership with Steve has come at a great time for Travelhome. We're growing as a company and have dealers across Australia and in New Zealand. We're selling more Travelhomes each month, we're proud of our product and believe Steve is a fantastic ambassador for us."

If you want more from your next RV, then have a good look at a Travelhome – Australian designed, built and owned.

Steve's Travelhome will be on display in the paddock at the majority of the remaining rounds of the V8 Supercar Championship for 2007.
