# The Travelhome Macquarie 29 Range

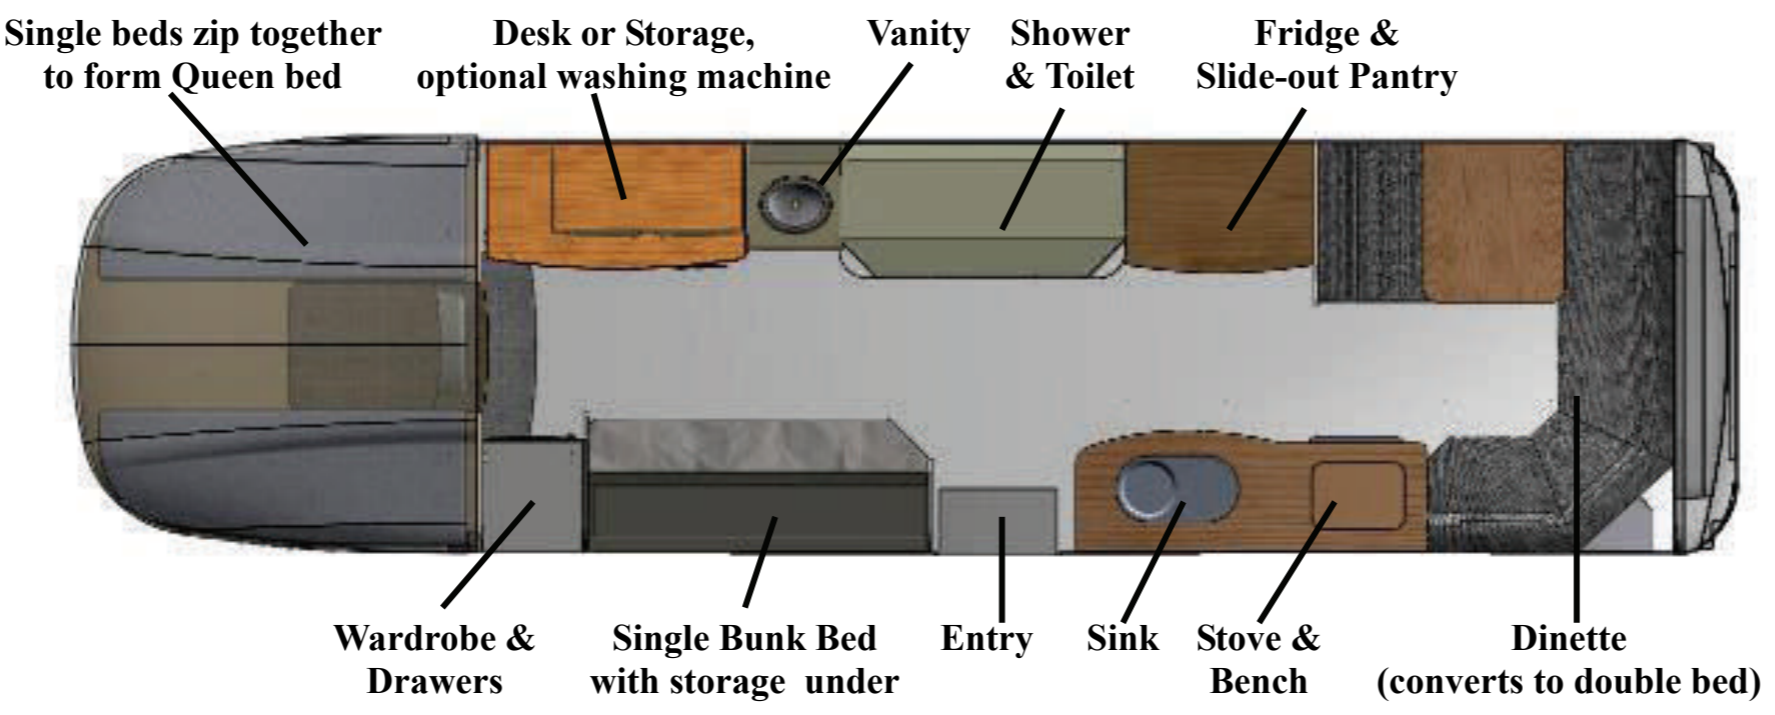

Australia's leading fifth wheel manufacturer has just released an exciting new model of its Travelhome. The popular Macquarie 25 footer now has a big brother in the new larger Macquarie 29. Incorporating all the features that have made the Macquarie 25 an Australian favourite but with even more standard features and options, the Macquarie 29 is just what you would expect from such a well respected RV manufacturer.

You only have to look at a Travelhome to know that it is in a class all of its own. From its streamlined shape and aerodynamic nose through to its bright and open interior, you can tell that every detail has been carefully thought out, and the original style and comfort has been further refined over the years to complete this unique fifth wheeler.

For those people who only require one additional permanent bed, Travelhome has the Macquarie 29 single bunk floorplan. This floorplan has three permanent beds (a single bunk and two singles in the nose which can also convert into a double) and by converting the rear dinette into another double bed this floorplan will sleep up to five people in total.

## SINGLE BUNK BED FLOORPLAN

By eliminating the bottom bunk if not required this floorplan gains a large amount of storage under the single bunk bed, which can be accessed either internally or externally. The Macquarie 29 has a generous payload limit of 790-890kg (depending on the floorplan and options fitted), and a large amount of storage is offered on all floorplans (including a large rear boot).

As with the entire Macquarie 29 range, our modular system allows us to incorporate your input into the design of your Fifth Wheeler. So contact one of our friendly staff today. There has never been a better time to enjoy the Travelhome lifestyle.
