

Travelhome

The Travelhome Difference

1. 100% DESIGNED AND BUILT IN AUSTRALIA FOR AUSTRALIAN ROAD CONDITIONS

Australian roads are tough on RVs, but Travelhomes are tougher. Built with a galvanised steel chassis and a high road clearance, the Travelhome has been designed specifically for Australian Conditions. The one-piece fibreglass roof laps over the sides to prevent leaks, making each van watertight and dustproof. There are no impractical moving parts such as slide-outs to add weight and break in inconvenient locations, stranding you miles from anywhere. And unlike many imported vans, Travelhome meets all Australian Vehicle standards and is a proud member of the Recreational Vehicle Manufacturer's Association of Australia.

WHY MORE PEOPLE ARE CHOOSING TRAVELHOME

2. 5 YEAR CONSTRUCTION WARRANTY BACKED BY NATIONAL DEALER NETWORK AND A TRUSTED AUSTRALIAN COMPANY

Since 2003 Travelhome has been building its name as a reputable and respected manufacturer of quality Australian fifth wheelers. We stand behind the quality of our fifth wheelers by offering a 5 year construction warranty to all original owners. Unlike many smaller manufacturers or importers we have a national dealer network and 1300 warranty number, so no matter where you are in Australia any problems you have can be quickly remedied. Ask any of the hundreds of satisfied Travelhome owners.

3. LIGHTWEIGHT CONSTRUCTION MEANS YOU DO NOT REQUIRE A LARGER MORE EXPENSIVE TOW VEHICLE

Travelhome's advanced lightweight construction utilises a fibreglass shell, honeycomb walls, and a fibreglass and aluminium interior to deliver large weight savings without compromising strength or safety. There is a large range of less expensive tow vehicles to choose from including the Nissan Navara, Holden Colorado, Mazda BT-50, Ford Ranger, and even the Holden Crewman and Ford Falcon Ute, which can all be used with a standard car license and still allow you to carry a large payload. Combined with its aerodynamic shape, the Travelhome's light weight dramatically reduces travelling costs, and makes it easier and safer to tow.

4. HIGH QUALITY CONSTRUCTION AND LUXURIOUS COMFORT

You only have to look at a Travelhome to know that it is in a class all of its own. From its streamlined shape and aerodynamic nose through to its bright and open interior, you can tell that every detail has been carefully thought out, and the original style and comfort has been further refined over the years to complete this unique fifth wheeler. Travelhomes use state of the art light weight powder coated aluminium interior cupboards/wardrobes/overheads and a strong but smooth composite fibreglass shell which dramatically reduces weight when compared to other fifth wheelers. They also incorporate a premium quality and modern interior finish and a lightweight hi-tensile galvanised box section chassis and independent trailing arm suspension. There is a large range of high quality Macquarie fabric colours to choose from, as well as a range of benchtop and floor coverings. Many features are included as standard, such as an awning, entertainment pack, and 2 door fridge/freezer, and there is a long list of options such as a fully enclosed annexe, washing machine, recliner chairs, leather upholstery, solar panels, slide-out kitchen, and diesel heater.
